

Ocean Township High School

Office of the Principal

It is an exciting time for Ocean Township High School! An outstanding, passionate and caring faculty and staff are committed to your child's success and well-being. We understand the need to prepare our students for the infinite possibilities of tomorrow with a focus on critical thinking skills and the transformational use of technology today. The teachers' dedication to engaging students in relevant and rigorous activities will prepare students for success in the 21st century.

Ocean Township High School has developed new partnerships, new construction and new programs which allow us to offer new opportunities for our students. Building upon successful partnerships with Monmouth and Kean Universities to offer college credit to its students, OTHS has recently entered relationship with Rider University who will offer credit to our students taking the Tomorrow's Teachers course. With the additions to the building we will build upon and sustain the Visual and Performing Arts center as well as our physical education, sports medicine and athletics programs. In addition, the Career Pathways grant, awarded to Ocean Township High School this spring, will allow us to define and develop career-technical educational programs within our building. An Academy of Finance and an Academy of Technology will be available to our students in the near future.

With such an eye on the future, it could be easy to neglect the past—tradition. But it is in much of that tradition that Ocean Township High School demonstrates its greatest strength. In my short time at OTHS, there is one element which shines consistently--the ever-growing Spartan Legacy of respect, pride, commitment, integrity, and spirit. It can be seen in the classrooms, in the hallways, on the fields and in the community. It is evident in the way students and teachers speak with their peers and with one another, in the way they walk through the halls and perform in their classrooms, and in the way they care about the community—providing service and leadership to help others. It is that legacy to which your children contribute and from which they will greatly benefit.

Have a great year, Spartans!
